

BLACKBERRY MARKET PARKING

DURING APEX CONSTRUCTION | SEPTEMBER 2020

OUR PRO TIPS FOR NAVIGATING PARKING DURING CONSTRUCTION!

TIP #1: Navigate via Park Blvd. Your best bet going to be to drive north or south on Park and turn west onto Hillside. From this direction you have access to the majority of the closer and more accessible spots.

Tip #2: Utilize the NEW Curbside Pickup Spots. We moved our picnic tables onto the parkway on Hillside (in the grass in front of St Mark's) in order to add four new curbside spots. Also, there are still two curbside pickup spots on Main Street. With 6 spots total for 15-minute curbside pickup parking, we hope you will consistently have a spot to use to get your online orders!

Tip #3: Enjoy the VERY BRIEF Walk. We have timed it and it only takes 1-3 minutes to walk from anything on Hillside, Forest, Phillips or Glenwood. Also, due to the tent, there are typically spots on Main Street south of the tent during the morning/afternoon, which is worth checking if you don't mind making a 3-point turn to get back out! The commuter lots are also going to be free with plenty of spots!

Tip #4: Utilize Glen Ellyn Bible Church! GEBC is graciously giving us 9 exclusive parking spots on the far west side of the parking lot (the spots that face Glenwood). We will have signs up on these spots soon, but for sure if you haven't found a spot by the time you get to GEBC, you should be able to grab one there. (THANK YOU GEBC!) Note: This is for parking ONLY in these designated spots. And ONLY available when there is not an existing event (which signs will designate) at the church. Thanks, we ask that you respect these requests.
